

Looking to Take Action?

The bills below are common sense steps to address climate change and build our clean energy future here in Massachusetts. That's why all of these bills have majority or near-majority support from our legislators.

We need to urgently reach out to our legislators to get these bills out of committee. Please call your State Representative right away. These bills need to be out of committee before February 7. Please also contact:

Speaker of the House

Robert DeLeo 617-722-2500
RobertDeLeo@MAHouse.gov

Chair, Joint Committee on Telecommunications, Utilities, and Energy

Thomas Golden 617-722-2263
ThomasGolden@MAHouse.gov

Let's Get These Done

- 1. A 3% increase in the Renewable Portfolio Standard (H.2700)**
- 2. A Ban on the Pipeline Tax and a Reformed DPU (H.2698 & H.3400)**
- 3. Raise the Solar Net Metering Cap with Low Income Incentives (H.3396)**
- 4. A Fair Price on Carbon Emissions (H.1726 & S.1821)**
- 5. Implementation of the Global Warming Solutions Act (H.2149)**

The 350 Metrowest Node is a local environmental group focusing on climate change, legislation and community sustainability. For more information contact us at www.350massmetrowest.org and www.facebook.com/350MAMetrowestNode.
